Subject: Scotland Road project

My name is Patricia Little, and I live at 140 Canterbury Turnpike in Norwich. I support the housing project being proposed for Scotland Road, because I feel we need diversity in our neighborhoods, and there is a need for elderly housing. Also, especially in this economy, local development and investment can be a positive step forward. The concerns about the increased population in the neighborhood are valid, but these are set to be people over 55 who will more than likely not be bringing multiple children to live with them as other housing developments would.
Please consider approving this project. Thank you.
