Subject: Testimony

Mr. Marinelli –

I have become aware of the proposal in SB 123 that would repeal the Risk Reduction Credit Program and put an end to the opportunity for convicted felons to earn "time off" of their sentences. I want to go on record in support of this bill. While I could support reducing prison terms for non-violent prisoners – white collar crime, even a motor vehicle manslaughter type crime and other such convictions – I cannot support early release of those who have been convicted of serious felonies such as child abuse, rape, assault, etc. When it comes to bodily harm, I have to draw the line. Please add my voice to others who support SB 123.

Sincerely,

Norm Winnerman - Conference Assistant
