January 11, 2013

Senator Doyle,

I think raising the minimum wage is critical to sustain and revitalize our local economy.
When employers pay their workers a higher wage, they have more flexible income to spend on local businesses.

CT. has one of the highest cost of living, and the minimum wage has not risen in four years.

Senator, we need you to stand up for people and businesses in our community.
Please support raising the minimum wage. In the end, we will all benefit from it.

Thank you.
