Dear State Representative Kupchick and Senator Hwang:

So many of us in Fairfield have been waiting a long time for these critical issues to finally be addressed as amendments to State Affordable Housing Statute 8-30g.
We are sure it was never the intent of its original framers to leave local towns vulnerable to profit-motivated developers who seek to over-rule the best interests of the public
we serve, or of the target populations 8-30g hoped to help, especially growing numbers of seniors, veterans, and disabled most in need of affordable housing.

It is urgent that the proposed common-sense bills now before you be seriously considered and passed into law this year.
Thank you for this opportunity to be heard.

Ellen Jacob
