Testimony Concerning Raised Bill 6303
Ronald L. Troia

Dear Representative Perillo,

I would like to thank you for the opportunity to testify in support of Raised Bill 6303, An Concerning Municipal Animal Shelters.

As well as being the motorcycle activist that you know me as I am also a private citizen w official ties with any animal protection/welfare organization although I do support the ef of many of them. That being said I feel it is imperative that we as a society work to prote animal friends at every opportunity. Those who are charged with caring for those are unfortunate enough to end up in shelters almost always through no fault of their own m always utilize utmost care and compassion for these creatures.

It is a disgrace that the animals who are taken into the municipal shelter systems are far often denied urgent veterinary care. However, the reality is that far too many animals lar in silence in our shelters, exposed to unnecessary pain and suffering. Passing this law will these animals the urgent care they require.

I respectfully urge you to support Bill #6303 to help in the protection of innocent animals

If you have any questions or concerns regarding this proposed legislation please feel free to contact me.

Thank you for allowing me to submit this testimony.

Respectfully Submitted,

Ronald L. Troia
