Commissioner

Testimony, Before Commerce Committee
In Support of SB 801:
AN ACT MAKING MANUFACTURING ASSISTANCE ACT FUNDS AVAILABLE FOR THE SMALL BUSINESS EXPRESS PROGRAM

Tuesday, February 5, 2013

Senator Lebeau, Representative Perone and members of the Commerce Committee. My name is Catherine Smith and I am the Commissioner of the Department of Economic & Community Development (DECD). I am here before you today to testify in support of SB 801: AN ACT MAKING MANUFACTURING ASSISTANCE ACT FUNDS AVAILABLE FOR THE SMALL BUSINESS EXPRESS PROGRAM. Before I begin to speak to the merits of the legislation, let me first commend you on bringing this very important piece of legislation to a hearing and a vote so quickly.

As you are all aware, during the 2011 bi-partisan jobs session, the legislature created the Small Business Express Program (EXP). This program sought to create a pathway for small businesses to quickly access much needed capital to expand their operations and create jobs here in Connecticut. The EXP program consists of three elements; a Revolving Loan Fund, a Job Creation Loan Fund and a Matching Grant Program. These types of assistance have worked to stimulate the local economy by offsetting the void which was created when banks and other financial institutions pulled back on lending post recession.

I am proud to say that the program to date has been a great success. DECD has received over 1,674 applications, we have paid out $ $77,494,748 to businesses that have committed to create 2,024 jobs and retain 5,356 over the next 12 months. These investments have also leveraged over $46 million in private investment, but unfortunately we have received more applications than we are able to fund.

The legislation before you today, seeks to address this shortfall and would allow this essential program to continue. During the 2011 Jobs Session, there was an authorization for $60 million over two years for Small Business Development within the parameters of the Manufacturing Assistance Account (MAA). To date these dollars have not been allocated. This legislation would modify that authorization by allowing the funds to be allocated to the EXP program. The eligibility criteria for MAA funds are prohibitive to the mission of the EXP program and this legislation seeks to addresses this discrepancy.

This program has helped DECD to continue it's mission to create high quality, well paid jobs here in Connecticut while at the same time helping our "main street" small businesses thrive. In order to address the needs of all the businesses that have either received commitments, letters of intents or those that are currently in financial review, this allocation is necessary. It would be unfortunate at this time to have to start turning away small businesses in need.

Thank you for your time and I'm happy to answer any questions you may have.

Goals of Small Business Express

- Provide capital, working capital and other funds to small, "Main Street" businesses, to help create jobs in all Connecticut towns and cities
- Provide a good rate of return to Connecticut taxpayers as jobs are created and income tax levied on those jobs
- Stimulate, at the local economy level, to offset the void created when banks and other financing institutions pulled back on lending, post recession
