
Dear to whom it may Concern,

I'm writing this letter reguarding Nurturing family Program. My experience in this program has been excellent. This program has taught me how to be the mother that I am today. NFP helps me with my daughter, they provide diapers, books, toys, and anything else that my daughter needs. Taking this away from us will really affect us. for the simple reason that they are apart of our family. They have been with me for almost 3 years and they are really helpful. Being in this program means alot to me. I learn something new everytime I get a visit. And in the future I will be a great mom and always be thankful for everything NFP has done for me and my daughter.

Sincerely,
Janitza Fuentes
and
Kaylee Luyando
