To whom it may concern,

I really enjoy Nutturing families coming to my home for visits and giving all kinds of support and guidance with helping me with my children. I always look forward to my visits from Nutturing families and Barbara. The word D.C.F. really bothers me because I had an issue w/them from ex-husband, but I'm not going into details, but just to let you know that it was not my fault. Please keep this program going long as possible its great and great help for first time mothers

Sincerely
Jessica March
