Bill number: 5144

To whom this may concern,

I'm writting this letter to inform you that the NFN program is a very important program. I am a young mom and this program has helped me tremendously. My home worker helps me understand my daughter and she's caring. Not only does she help me know my daughter but she gives me things I need like diapers and food. I don't think I would be as good of a mom as I am today if I didn't have the help they provide.

Sincerely
Maria
