Re: committee Bill No. #5744

Dear Senator John W. Fonfara,

I Marta Acevedo, am writing this letter because I don't think you should close the Children Trust Fund because It has been very helpful for my family. As a single mother it has help me get closer to my daughter and help me understand her development. I'am part of the Nurturing family program. The program is very helpful to me. They have become a part of my family. They have been there when I had my child and they seen her grow up so far and I can't image how we will be with out the program. Please really think about it and open your heart and really think what going to happen to the families that are in the program if it taken.

your truly
Marta Acevedo
