Re - Budget

This request for your supporting vote to keep the GWTD Dial a Ride program funded is in my behalf, and also on behalf of all elderly and disabled. As a member of the Commission on Aging I am opposed to their needs - to keep appointment with Doctors, Dentists, Hairdressers, in surrounding towns which do not provide public transportation. In cities like Waterbury and Naugatuck which run buses the walk from the bus stop to your destination is prohibitive. Dial a Ride provides portal to portal transportation.

Please consider their needs and support the funding, maintenance and continuation of this program. There is a real need!
