Dear Legislator,

My name is Jason Metzger and I live at 32 Margerie St in Bristol, CT.

Changing any prevailing wage project thresholds only serves to limit the number of opportunities to earn prevailing wage on a project. It decreases opportunities for competitive bidding among contractors and limits opportunities for workers to earn a good wage while setting money aside for health care and retirement. Prevailing wage is a worker issue and as a worker, I **oppose** any changes to weaken the prevailing wage or to increase the threshold, and therefore **oppose** all the below mentioned bills. Please **oppose** these bills and support my future.

Thank you,
