Good morning,

My name is Ana Rivera and I live in Bridgeport, Ct. and I am here to ask for help so I don't lose my home that I have worked so hard and used my life savings to keep. I tried to work with my lender on my own but it was frustrating and no one person could help me. I would call several times and get different answers. I went to Acorn but had no help from them so I heard of HDF and there the counselors contacted the banks and faxed paperwork that were requested. We have been going on for months with the same problem of not being able to a get answer on my HAMP modification. My HDF counselor Daisey Perez has sent all paperwork and called several times and still no one gives us a answer.
