Written Testimony of Kristina Wikander

To the Connecticut General Assembly Energy and Technology Committee,
March 15, 2011

concerning SENATE BILL 1, AN ACT CONCERNING ENERGY POLICY AND FINANCE.

Gentlemen and Ladies,

Please continue the 2010 solar sections in the 2011 "energy bill" and do not cut this in half. People are just beginning to realize that renewable energy options are affordable, with these incentives to defray the costs.

Also please do not remove the limitations on hydropower that can qualify for Class I of the Renewable Portfolio Standard. Let's aim our sights towards the future - in new and cleaner sources of power like wind and solar.

Thank you,

Kristina Wikander
