FTR

HB 6365
opposed

The Town of Ledyard has examined options and has chosen to place our trust in CIRMA for our Property and Liability needs.
Having personally served clients for 25 years in the Property and Casualty insurance prior to being employed by our town, I can attest that knowledge of risks and relationships are vitally important to successful risk management!
Our Town of Ledyard was recognized for our efforts at loss reduction and risk management by CIRMA .
Forcing municipalities to bid (and take low bidders) may on the surface appear to create cost effectiveness. Cheap is not always the best choice.
What makes the originator of this bill believe that municipalities are not effective and making proper choices.
Let the CEO's of our municipalities function and deal with problems if they arise.
Added "Mandates" are not necessary, nor desirable. Enough already.
We have checks and balances in place already to measure our efforts!

Fred Allyn, Jr.
Town of Ledyard
Office of Mayor
