I had no intention of coming to this hearing until I read about this new bill the Judiciary Committee is proposing concerning the siting of the sex offender facility. I fully support the Committee's efforts because if passed by the General Assembly this bill will accomplish what the Town of Montville was trying to accomplish with their lawsuit against the State. It will provide for "~~New~~ fresh eyes" to look at the criteria used for siting this facility. I want to thank the members of this Committee who recognize that there is a problem that must to addressed.
