To Whom It May Concern,

I'm writing to ask for protection from dicipline if I happen to use sick days that are alotted yearly from my place of employement. I have been working for SNET/SBC/Att for a total of 13 years, and as the years go by it have become more and more difficult to deal with an illness. My last illness with strep throat was an two day ordeal in April of 2010 and then came out to be 6 months of a written warning, with the next step being payroll reduction for 6 months if I had any trouble with my attendence (tardiness or absence). I am a hardworking single mother of four children ranging in age from 4 years to 17 years who could from time to time bring a germ into home. I have become fearful of catching their germs and then becoming unable to work. Please help to stop large corporations from diciplining employee from using sick days.
