How Supportive housing has helped me?
Before Supportive housing, I was having a hard time paying my bills and most important, my rent, and needed a new place to live. Maria my worker was helpful when looking for a new place to live. After finding a new home, having the help of knowing my rent would be paid, releaved of the stress of not knowing if I would be kicked out and not always having the full amount of rent. Having the extra help has helped me to take part of payment plans for my other bills and most important that extra stress of not always having my full amount of rent. This has helped me in so many ways and allow me to enjoy my extra time worrying about my kids needs and other activites. Im thankful for this program and my worker. If it wasnt for this program I dont know where I would be.

Sincerely,

Cara Fordomick
