SB 209 3/1/12

I am testifying in support of SB 209
I think that people should continue to recive
State assistence while they persue the
education. I came here and I was lucky
I got a job without speaking english
because i have a good friend that translated
the workds of my boss to Spanish so I
could drive the forklift. I workds for 3 years.
One day my friend didn't come to translated.
My boss fired me that day because I didn't
Speak english. I looked for a new job is
was imposible to find. Now I talking english
classes. Please reforms the jobs first
program to include education.

thank you

Iris Valentin
