S.B 209

I am testifying in support of S.B. 209.
I think that people should continue to receive
State assitance while they persue there education.
I am working veary hard to get my G.E.D At washinton
St. Adult eduacation Center. I go five days a
week because I know without a G.E.D. it is impossible
to find a job and beleve me I've been looking for
two years. I even worked with a case worker at
Ct works at the DSS building to find jobs on line.
I am still looking for work. Please Reform the
Jobs first program to Include Eduacation.

Thank you

Larry Moers
