SB 209 3/1/12

I am testifying in support of SB 209
I think that people should continue to
receive state assistence while they persue
there education. In Puerto Rico, I have
a high School education, and 2 years
university, I have a good job and for 5 years.
Spanish is for my first leanguaje when I
move to connecticut. I tried very hard to fine
a job, but is imposible with out speaking
very good English. I am taking english class
but learning a new leanguaje take a lot of
time. Please reforms the jobs first program to
include education.

thank you
Lunnette Gonzalez
