My Name is Anthony Reddick. I have been fortunate to be a Stride participant since April 2012.

I began Stride programming while incarcerated. Job search techniques and life skills are, what I thought to be fair, tools to assist me once released. The classes details and information were far beyond my expectation. Environmental attitude, recalling work experience, mock interviews, and work place behavior, are tools I've ~~taken~~ utilized and have made it today as second chance an employed active parent, responsible son and a restored voting rights proud citizen.

I can't be thankful enough to Catherine M. my Stride counselor. She's helped me make some tough but good decisions. Our bi-weekly meetings has enabled me to stay focussed on what's imper. and to not sweat the small stuff.

I've been guided to gaining and keeping employment successfully completing parole, parenting

advice and guidance. We're currently getting through credit repair and continuing Education.

Honestly speaking this type of necessary assistance for an ex felon, and it actually working, I may of heard about it once or twice but I'm actually living it and achieving so much because of Stride. Thank you Catherine

Sincerely
Anthony Reddick
