Senate Bill 1016

To the Enviromental Committee concerning the Senate Bill 1016

I am a resident of Branford, CT. and wish to express my concern about the existing problem I have with my neighbor's yellow groove bamboo spreading throughout my property on 41 Short Rocks Rd. Each year I see new and continual invasion spreading out of control. I know the devasation it can cause. He knows my concern since I've brought it to his attention to please remove it but he has never attempted to do this.

This letter is to inform you that I am very much in favor of passing a bill that would assign liability to the person growing the yellow groove bamboo and make it their responsibility to pay for removal and clean up of the invasion on to others property.

Thank you for your time
