January 15, 2013

Dear Senator Meyer,

I think raising the minimum wage is important to sustaining our economy. By increasing workers' income, they will be able to spend their money on businesses in the community. It will also enable families to make ends meet more easily, providing medical and food for their household. Senator, we need to stand up for people and businesses in our community. Please support raising the minimum wage, and in the end we will all benefit. Thank you.

Sincerely,

Ann Marie Shattuck
