Dear Senator,

Please support raising the minimum wage. There are too many families struggling to make ends meet in Connecticut, and $8.25 an hour is inadequate. Not only is raiging the minimum wage the just thing to do for hard working families, it is also important ~~to~~ in revitalizing the local economy. People who make minimum wage spend their money locally and small businesses can really use that boost.

As citizens and taxpayers, we need to lift families out of poverty. People are willing to work hard but need something to show for it. Raising the minimum wage is the right thing to consider as we encourage people to remain self-reliant and independent.

Sincerely,

Cathleen Luker
