Please support raising the minimum wage
There are too many families struggling
to make ends meet in Ct, and $8.25
an hour is just not enough. Not only
is raising the minimum wage the
fair thing to do for hard working
families, it is also important in
revitalizing the local economy. People
who make minimum wage spend
their money locally & small businesses
can really use that boost.

I hope you do the right thing to lift
families out of poverty & support
the raise in the minimum wage.

Sincerely,
Cynthia Thrasher
