Dear Senator

My name is Dan Scribano and I've worked for minimum wage my whole life so far. It hasn't really helped, I still have to live at home with my parents. I really would like the opportunity to be independent without working myself to the grave. I'm 21 and had no idea it would take up to 150 hours at 8.25 to move out.

Therefore, I'm supporting increasing the minimum wage. It wouldn't just help me, it would also help my family, my community and the small businesses I'd love to be able to support.

Senator, please support your Rocky Hill residents and support this bill. $8.25 isn't a sufficient wage to live on - it barely supports living expenses.

Respectfully yours,

Daniel Scribano
