Senator Doyle

I've been seeing some talk about raising the minimum wage and was surprised to find it was only $8.25. When I came to America from Italy, I was making $7.00 in 1973.

I love this country, I love the opportun. it provides but for people making that litt where is the opportunity? How can they live on that?

I honestly believe we should give more to these people so they can provide for their families. Nobody can live on that. Please support this bill and stand up for people in your ~~district~~ area.

I and my wife have worked hard since we came here, to provide for our children and give them the opportunities we didn't have in Italy.

Now we see people struggling and out of work - we need people like you to do something.

Sincerely,

Franco Buonanna (Franco Buonanna
