January 10, 2013

Senator Meyer,

Raising the minimum wage is crucial for families to survive the current economy. Everything is more expensive making every day essentials out of the reach of many families. Without enough income to pay for necessities the economy will never get any better!

Please be the voice for people who cannot be heard and do what's right. Make available more money that is deserved by the working class people. Raise the minimum wage!

Thank you for your time.
