January 15, 2013

Senator Meyer,

In this day and age, with the economy being what it is, it is impossible for anyone to survive on the current minimum wage. Connecticut should be ashamed to have not risen the minimum wage in four years. It is appalling to expect our citizens to be able to make better lives for themselves at the current minimum wage. As our senator, you need to do something about this issue. Support the bill to raise the minimum wage.

Sincerely,

Lynne Witowski
