Dear Senator Doyle

It's come to my attention that our minimum wage is still only 8.25 an hour. As a family man, I can't imagine how one makes ends meet at such a low rate. Worse is the fact that people have to work at least 50 hours a week - where is the time for family? 50 hours a week and still unable to pay for things - I can't imagine how unjust that is.

Senator Doyle - please support raising the minimum wage.

Sincerely,

MICHAEL CELLA
