Dear Senator

Please support raising the minimum wages. There are too many families struggling to make ends meet in CT and $8.25 an hour is not enough. Not only is raising a family hard fair thing working families it is in revitalizing the local economy. People who make minimum wage spend their money locally and small business can really rise that cooost.

I hope you do the right thing with and help the family of fair shake at baking life and you support the minimum wage increase for hard working Connecticutcans

I support this effort to help our community and so should you

Sincerely

Mike Miller
