Senator Cassano -

In these tough economic times, it is difficult to stay afloat. With so many young people not being able to ~~afford~~ find jobs in their field, it makes all of us vulnerable. I am concerned about the next generation.

I am personally a young mother who's husband works two jobs for us to stay afloat. He is gone more then 60+ hours a week & spends very little time at home with his 2 young girls & one more on the way.

Senator, too many families just can't make ends meet in our state. Please support raising the minimum wage & in the end, we will all benefit from it.

Thanks

The Clark Family

Eric
