Senator Doyle,

Please support raising the CT Minimum Wage.

You and I both know that minimum wage jobs are not enough for families to raise themselves above the poverty line.

A family trying to live off a minimum wage job will often not be able to meet their expenses. Thus they need to turn to public assistance and taxpayers have to make up the difference. These workers and families deserve better.

Senator please stand up for the people who need your help. Working families deserve to be able to support themselves.

You and I both know this is the right thing to do. I sincerely hope these people can count on you.

Thank you so much!

Sincerely,

Thomas Rolfe
