1/17/13

Dear Sen. Doyle,

Please Consider raising the minimum wage. While it will help a few People here in Rocky Hill, especially the younger workers, the greater Hartford area will regionally benefit from increased purchases and revenues.

Being a director of the Sheldon-Oates Central Housing of Hartford, I see what low or no wages result in: depression, reliance on welfare (often for 3 or 4 generations), and general mistrust of governmental solutions.

A fair wage Scale, Protracted over a lengthy time, will allow the lower-waged People a hope that they may climb higher in the Society, a hope that they have every right to believe in, and a hope that you, as our elected official, has every obligation to Approve.

A fair wage is the least we can give the Poor of the USA.

Let me Know How You'll Vote.
