Dear Senator Doyle,

I would ask you to consider raising the minimum wage in our state. There are several "workers" who live below the poverty level and are struggling to make ends meet. Some of those people are intelligent, hard working folks (actually most of them) who work in jobs that pay little. I would include paraprofessionals who care for our children & have a huge responsibility but are paid very little. Also, think about the folks who care for the elderly in homes, and care deeply for our seniors but again are paid very little for a huge responsibility.

Please consider how important it is to keep folks here in CT, and to do this consider raising the minimum wage.

Sincerely yours,

Denise A. Lewis
