Senior Dyer,

The minimum wage should be increased. Its said that the youth are our future. They need to have as much help as possible to get on their own two feet and be independent. This is not possible with our minimum wage so low. Remember what it was like to be struggling as you consider this request.

Sincerely,

Gary Masciati

North Branford CT

Senator Meyer,

I am behind the current campaign to raise the minimum wage. The cost of living is becoming increasingly difficult for citizens of this country to survive. I am the owner of a small remodeling business and have seen the negative effects of a poor economy in my everyday dealings with the middle class workers. We need a boost in our economy and this would be a good start.

Sincerely,

Nick Jr Filippo
