Dear Senator,

My name is Matthew and I am a concerned employee As a part-time worker balancing School and work, I have struggled to meet sufficient funds to support my cause. As a high-school student, my cause, of course, is to help save for college. At a wage of $8.25 an hour in this state, I have found it difficult to meet the needs required for a good education. I don't believe this is going to be the only factor that will make college harder to obtain, but I do believe that raising the minimum wage will help. I am sure my case isn't nearly as severe as other employees struggling in the state to make ends meet, but help is always greatly appreciated

Sincerly,
Matthew (Jentzen
101 Barrington Way)
