Senator Doyle,

I feel that the minimum wage is to low for current economic times. My wife works for the State of Connecticut and has not had a raise now for 5 yrs. With our wages frozen we just about make ends meet.

Therefore, those whom make minimum wage are worst off then us, even though I am unemployed.

I think wages should be increased for those whom are earning min wage.

Please pass these feelings to your fellow Senators.

Thank you.

Sincerely,

Nicholas Rinaldi
