1-16-13

Senator Doyle,

I am in full support of raising the minimum wage. During these hard and difficult times a raise in the minimum wage will benefit those in need making them independent and less dependent on state aid. Since the cost of everything is going up it is only fair that the hardest working people are taken into consideration

Senator please support the bill to raise the minimum wage. The present wage of $8.25 just won't cut it anymore.

Sincerely

Tony Santos

P.S. A response would be greatly appreciated.

Thank You.
