Good morning/afternoon. I am Kurt Pfeiffer and I had a traumatic brain injury in 2010. I have been waiting over 3 years to get on the Brain Injury Waiver Program.

I finally got on the waiver in february of this year. I am opposed to the Brain Injury Waiver Two program because I would lose all three of my ILST's who have been trained to help me regain my independence.

I do not have any mental health issues and do not want or need a recovery assistant. I have memory problems, not mental problems! Kurt Pfeiffer 3-28-14

Please do not jeapordize my program. — and vote no on ABI Waiver Two —
