Good Evening, my name is Gabriella Delesus Brown, I am an 8th grader at Medical Professions and Teacher Preparation Academy. I ask that you continue to fund my school which is part of the CREC district, because I believe that there are a lot of positive contributions that are being introduced to me via this magnet school as a student aspiring to be a doctor. A contribution that I'm able to recieve is the small class sizes. This gives me a chance to ask questions and get almost immediate feedback. My teachers also get the chance to know me as an individual because they really care about my farewell & sucess as a person therefore learning my strengths and weaknesses as well so they can help me become a better student. My magnet school has really given and continues to give me opportunities that many other schools aren't able to give their students. In sixth grade they made it able for me to learn CPR and all different types of techniques to deal with children in a healthy way. In 6th & 7th we traveled to Saint Francis hospital two times and were able to have an inside look to where we might work one day which was inspiring for me especially. In addition attending a magnet school has given me the chance to interact with students from different cities & towns giving me connections & relationships with a diverse range of people from different backgrounds and cultures which help me

become more well rounded. I ask you to continue funding Magnet schools because they truly ~~have~~ given me a great educational experience so far and I look forward to continuing my journey to becoming a successful doctor in the atmosphere Medical Professions and teacher preparation Academy has created. Thank you.
