I 40

3-1-16

The Williams Family would like the Bill 5272 to pass so other lives and loved ones can be saved. The pain we felt on march 11, 2014, we lost our dad, husband, grandfather, etc ... to his work place not having a CO2 detector as he was driving a fork lift which was leaking carbon monoxide. If ~~there~~ a CO2 detector was in the building at the time to warn him something was wrong he would be with us today.

Hi My name is Amelie Williams Cheng
and I'm from Middletown, CT
I'm here to support bill 5272
