Testimony For The Protect Act

"Read out loud" | Bill No. S. B. 1059

"My name is Carlos Baez, Im from Waterbury and I strongly support "The Protect Act", I am currently incarcerated. I have experienced prolonged isolation first hand at Cheshire C.I. where I was in a cell for 30 days all by myself and my request to be placed with another inmate went ignored. I witness other prisoners in in-cell restraint and the sight was a hurtful thing to see, its like they were animals. I also pessonally suffered from soft restraint (4 Point) in which was very torturing. "Ending abusive restraints is essential to protect incarserated people. I support this provision and it must be included in the bill."
