Testimony For The Protect
ACT. S.B.1059

Please Read Out Loud :

My Name is Victor Rodriguez, I'm A Resident of New Haven, CT and I Support the Protect Act 100% (percent). At the Moment I'm Currently Incarcerated in New Haven Correctional. I've personally experienced pro longed Isolation First at Northern C.I (unit: 2west) Cell: 102 in October 2017. I was placed on In-cell Restraints For 32 hours Due to A Mental Health situation that was happening. I was Mentally and Emotionally Tore Apart I was getting treated More like a Animal than a Human. To this Day I am scared and Paranoid to speak to Anyone About ANY type of problem im going through because I feel like ill be placed in Restraints Again or even Worse. Being in the situation that I was Caused Me to have P.T.S.D and Made My Depression get Worser then it was. No Person should go through Torture and pain that ive experienced especially if one another already has a Mental Illness. I support the ACT and it must be included in the Bill :
