

General Assembly

February Session, 2006

**Amendment**

LCO No. 4906

\*HB0552204906HDO\*

Offered by:  
REP. BACKER, 121<sup>st</sup> Dist.

To: Subst. House Bill No. 5522      File No. 244      Cal. No. 172

**"AN ACT CONCERNING ELECTRIC MARKET STRUCTURE."**

1      After the last section, add the following and renumber sections and  
2      internal references accordingly:

3      "Sec. 501. Subparagraph (A) of subdivision (4) of subsection (b) of  
4      section 16-244c of the 2006 supplement to the general statutes is  
5      repealed and the following is substituted in lieu thereof (*Effective from*  
6      *passage*):

7      (4) (A) In addition to its costs received pursuant to subsection (h) of  
8      this section, as compensation for providing transitional standard offer  
9      service, each electric distribution company shall receive an amount  
10     equal to five-tenths of one mill per kilowatt hour. Revenues from such  
11     compensation shall not be included in calculating the electric  
12     distribution company's earnings for purposes of, or in determining  
13     whether its rates are just and reasonable under, sections 16-19, 16-19a  
14     and 16-19e, including an earnings sharing mechanism. In addition,  
15     [each] in any year in which average annual generation-related costs

16 passed through to transitional standard service customers increase by  
17 not more than ten per cent over the prior year's average annual  
18 generation-related costs, electric distribution company may earn  
19 compensation for mitigating the prices of the contracts for the  
20 provision of electric generation services, as provided in subdivision (2)  
21 of this subsection."
