

3/6/07

Hello my name is Hugo Nunez

I was in Mercy Housing and Shelter a long time ago and recently I have been given the chance to be graced with their help once again. They are an excellent organization that devotes themselves to helping people like me with housing and other needs.

There are some clients that rely totally on Mercy for their housing needs for example one woman I recently meant at Mercy Housing and Shelter told me that she gets \$300 a month and now that the funds are being cut she does not know what she is going to do and fears that she will become homeless or even worse dead.

I am a living example of what pray and the help of Mercy Housing shelter would do for you. I have made it this far because a program like Mercy Housing and Shelter picked me up when I was down Current decisions that have been made about cutting housing funds will hinder the progress that clients have made and the ability for the workers to help them.
