

TO: Public Health Committee  
RE: Senate Bill 1339 An Act Concerning AED's

---

As an RN and heart survivor I would like the legislature to pass the law concerning AED's in schools and health clubs. A while ago I was at a local Curves when a woman collapsed. I tried to assist her, but no equipment was available. 911 was called and she was taken to a hospital. I spoke to the technicians regarding the need for and AED and other equipment at the facility. They were going to address the issue with the club owner. I have been a long time volunteer with the American Heart Association and a patient advocate during my professional life. Thank you for your attention.
