**Title:** AN ACT CONCERNING SCHOOL BUILDING PROJECTS, DESIGN COSTS AND THE HIRING OF A DESIGN PROFESSIONAL.

**Statement of Purpose:** To authorize municipalities to apply for a school building project grant upon appropriation of complete project design costs and the hiring of a design professional for that purpose in order to save the state school construction grant funds and streamline administration of the program in that project costs presented to the legislature will be more accurate, in fact actual costs, and construction bidders will be bidding without interpreting the appropriation as the amount the municipality is willing to spend, even if the cost could be lower.
