AN ACT CONCERNING THE CLAIM AGAINST THE STATE OF ABBAS BANKI

Re: Injury of my nerve by the Dental School of Medicine (DS)

I have - during 37 course of treatment- discovered my injury on 12/16/ 2003 and filed my claim against the state, with the Claims Commissioner on 12/09/2004- No.20316.

Therefore, I have - complied with the provision as required by section 4-147 of the general statutes, within the time limitations specified by subsection (a) of section 4 -148 of the general statutes

Discovery was diagnosed by a team of neurologist in the UConn Health Center.

DS started their job: on 10/22/2002 and terminated on 03/31/2004

Discovery manifested: I have injured my Superior Alveolar Nerve causing Trauma Trigeminal Neuralgia plus Paresthesia, that is, paralysis of this nerve for life time

The Commissioner dismissed my case because they would allege: I should have sued the state earlier, that is, before neurologists' discovery and while professors of DS couldn't have recognized it; I should have diagnosed the injury of Superior Alveolar Nerve, by blind knowledge at anatomy of dentistry

Best Regards

Abbas Banki
